**Ward Willaert** holds a Master of Science degree in rehabilitation sciences & physiotherapy. He is a Joint-PhD researcher working at the Vrije Universiteit Brussel (Brussels, Belgium) and Ghent University (Ghent, Belgium). He is a member of the Pain in Motion research group & out to chronic "unexplained" pain, associated disorders, diagnosis and treatment of (chronic) pain. He has a special interest in whiplash associated disorders and the central nervous system.

**Iris Coppieters** (°13/11/1989) holds a Master of Science degree in rehabilitation sciences and physiotherapy. She is a postdoctoral researcher at the Vrije Universiteit Brussel and Ghent University and a member of the Pain in Motion international research group. In 2017, she obtained her PhD in health sciences focusing on central sensitization and brain alterations in patients with chronic whiplash associated disorders compared to patients with chronic idiopathic neck pain. Her research and clinical interest goes out to chronic pain, pain rehabilitation, central sensitization and brain alterations. She received 3 presentation awards at national and international congresses.
